ACADEMIC CAREER and ACADEMIC POSITIONS

- 2020 - today Director of Department of Pharmacy, University of Pisa.
- 2019 – 2020 Coordinator of PhD Program in Science of Drug and Bioactive substances, University of Pisa, Department of Pharmacy.
- 2019-today Co-director of the Italian node of SAPRK Global Translational research (international network for translational research in medical and pharmaceutical field).
- 2016 - today Full Professor of Biochemistry Department of Pharmacy, University of Pisa, BIO/10 (Research and didactic activity in biochemistry and molecular biology)
- 2016 - 2020 Vice-Director of Department of Pharmacy, University of Pisa
- 2016 - 2018 Vice-CAI (International coordinator) of the Department of Pharmacy, University of Pisa
- 2014 - 2016 Associate Professor of Molecular Biology Department of Pharmacy, University of Pisa, BIO/11
- 2001 - 2014 Researcher of Biochemistry Department of Pharmacy, University of Pisa, BIO/10
- 1998 - 2000 Post Doc fellowship in Biochemistry Department of Psychiatry, Neurobiology, Pharmacology and Biotechnologies, University of Pisa, BIO/10

EDUCATION AND TRAINING

- 1998 PhD degree in "Disegno, Sviluppo e Biosperimentazione del Farmaco"
University of Pisa, Faculty of Pharmacy
- 1993 Laurea" degree "summa cum laude" in Pharmacy with a Thesis in Biochemistry,
University of Pisa, Faculty of Pharmacy

WORK ACTIVITIES

- Editorial activity** Guest Editor for two special issue of the International Journal of Molecular Science
Ad hoc reviewer for journals of the ACS, Elsevier, Wiley, Plos, MDPI publishing groups (average of ~ 30 manuscripts annually in the last 20 years)
Grant reviewer for MIUR and MUR (member of REPRISE); FISM Foundation, Italy.
- Invited presentations** -"Invited speaker" al al 6th Joint German-Italian Purine Club Meeting tenutosi ad Hamburg (Germany) dal 22 al 22-25 July, 2015 " Role of adenosine receptors in survival and differentiation of glioblastoma stem cells".
- "Invited Chairperson" of section "Purinergic signalling in neural development", 4th Joint German-Italian Purine Club Meeting, Bonn (Germany) 22 - 25 June, 2011.
- "Invited speaker" at 4th Joint German-Italian Purine Club Meeting, Bonn (Germany) 22 - 25 June , 2011, "Adenosine A2A receptors in psychiatric disorders".

Professional Society	-She is member of the Italian Society of Biochemistry and Molecular Biology. -She has been a Directive member and Secretary of the Purine Club, a no-profit scientific association gathering all research interested to the pathophysiology of purines and pyrimidines.
Grants (last 10 years)	<ul style="list-style-type: none"> - PNRR, Missione 4, Componente 2, Investimento 1.5, THE – Tuscany Health Ecosystem (Ecosistema dell'innovazione sulle scienze e le tecnologie della vita in Toscana)Spoke 8 - Sub-project 5 - Neurodegenerative diseases; - Bando Ricerca Salute 2018: 2020-2022, Participant, "SmarT bioactive peRsonalised and Implantable 3d printTed scaffold for tendOn regeneration", acronym "TRITONE". Unit budget: 400.000 EU; -FISM 2018 cod. 2018/R/21: Coordinator "Struttura cristalografica e caratterizzazione funzionale del recettore GPR17: un bersaglio innovativo per terapie di rimielinizzazione nella Sclerosi Multipla". Total 235.000 EU, local budget 95.000 EU -PRIN 2015: 2017-2020, Area 05, Unit PI, Microglia-cell communication in ischemia and glioblastoma (Mechanism). 24.812 EU -FISM 2015 cod. 2015/R/11: Local PI, "Characterization of the GPR17 receptor, a novel pharmacological target for remyelination therapy in multiple sclerosis". 70.000 EU -UVAR Dipint, University of Pisa 2015: Participant, Neurodegenerative diseases: the development of a new diagnostic test detecting α-synuclein complexes with β-amyloid or Tau in human blood. 10.500 EU -POR CReO FESR 2007-2013, Bando Unico R&S anno 2012 (Regione Toscana): Participant, Sviluppo di un nuovo preparato a base di Immunoglobuline G umane plasma-derivate per uso endovenoso. Total project budget 1.124.502,96 EU -Ministerial Project PRIN 2012: 2014-2017, Area 05, Project coordinator. Il controllo dell'osteoblastogenesi quale nuova strategia terapeutica per le patologie ossee. 353.445 EU
Patents	2017 Method for the diagnosis of neurodegenerative diseases. WO2017198554A1 2010 GPR17-modulating compounds, diagnostic and therapeutic uses thereof. WO 2012059869. 2004 GPR17 modulators, method of screening and uses thereof. WO2006045476A3
Other language(s)	English, C1 level
Job-related skills	Good organizational, communication and managerial skills acquired through a) the coordination of several national research projects as local and national manager; b) tutoring / supervisor of PhD students and undergraduates; c) institutional positions.
Digital skills	Daily use of software such as Windows Office (Word, Excel, PowerPoint) Excellent command of digital image processing programs (Adobe Photoshop) Excellent command in the use of data analysis and statistical analysis software (ImageJ, Origin and Graph-Pad Prism)
RESEARCH AREA	Trincavelli's research has been focused on basic mechanisms underlying G protein coupled receptor-ligand interaction and receptor functioning in normal and pathological cells and tissues. Research activity was focused on the investigation of a) intracellular signalling pathways coupled to receptor proteins and the molecular mechanisms involved in the regulation of receptor functional responses, such as internalization and desensitization; b) the study of intracellular signalling pathways involved in mitogenesis, cell differentiation, cell survival/death; c) stem cell differentiation processes for regenerative medicine. From several years she has been working in the G protein coupled research field, in particular on P1/P2 receptors, their transduction systems and regulatory pathways in physiological and pathological processes, such as demyelinating diseases. Recently, the PI research has been focused on the molecular mechanisms involved in pathogenesis of neurodegenerative and inflammatory disease for the identification of molecular target of pathology and the development of new therapeutic strategies.

Currently, a particular focus is on the study of stem cell differentiation towards tenocyte and osteoblasts on biocompatible scaffolds for tendon regeneration.

ADDITIONAL INFORMATION

Publications	<p><i>Number of total publications in peer-review journals:</i> 162 <i>Numer of publication last 10 years:</i> 58 <i>Total number of citations (scopus):</i> 4981 <i>H index (scopus):</i> 40</p> <p>For the complete list of publications see: https://arpi.unipi.it/simple-search?query=trincavelli&location=&sort_by=scoreℴ=desc&rpp=10&etal=0&filtername=author&filterquery=rp00038&filtertype=authority#.YAhYwOhKjIU</p>
